

Week 02

# Dictionary Function OOP

Ivanovitch Silva

ivanovitch.silva@ufrn.br

Real Python

Positional Arguments

frequency tables

unique values

statements Tuples

project

self

mobile apps

Append Method indexing

Built-in

Functions

speed up notebook

Structure Arguments

Dictionary

Looping

counting

Object Oriented

Extract Values

portfolio

class

jupyter finding key-value

Parameters

methods

Combining Functions

Debugging

returning

Reusability

Init Method
